

# Insurance & Payment

*Updated October 2026*

The Eye Center participates with many major medical and vision insurance plans. Some of the major insurance carriers we participate with include:

## Medical Insurance

- Aetna
- AmeriHealth
- Cigna
- Horizon Blue Cross Blue Shield of New Jersey
- Medicare
- Oxford
- UnitedHealthcare

## Vision Plans

- VSP
- Spectera / UnitedHealthcare Vision

This list is not all-inclusive. Participation varies by specific plan, network, physician, location, and service. Participation with an insurance carrier does not mean that The Eye Center or every physician participates with every plan or network offered by that carrier.

**Before your appointment:** Please contact our office with your insurance information so that we can assist you in determining whether we participate with your specific plan. We also recommend contacting your insurance carrier directly to confirm that your physician is in-network and to understand your coverage, benefits, and financial responsibility.

Please note that vision plan benefits and medical insurance benefits are separate. Coverage for routine vision services may differ from coverage for medical eye care.
